

COVID Planning

May 2021

Daily Health

Daily Symptom Checks:

Each night, between 6pm-9pm, families are expected to complete a short COVID-Symptom Checker. If the camper is experiencing any of the symptoms, you will be asked to keep your child at home the next day. An RDC staff member will be in touch with you to discuss next steps.

- **Should a camper develop symptoms of an illness while at camp:**
- They will be isolated from the rest of the group, with a counselor or staff member, while awaiting pick up from the camp.
- Parents must make arrangements to ensure that sick child can be picked up from camp in no more than 1 hour.
- Child can return to camp when they are symptom free for at least 24 hours without the aid of medication AND have a negative COVID-19 test.

Close Contact

Close contact is defined as an interaction with someone who has a positive COVID-19 diagnosis (within 6 feet for 15 minutes or more, during a 24-hour period).

- **If an unvaccinated camper or staff member has had 'Close Contact' to COVID-19, before returning to camp they must either:**

Quarantine and have a negative PCR test taken on or after day 5 and quarantine until day 7 to ensure no symptoms begin.

Quarantine and have a negative PCR test taken on or after day 7.

Quarantine for 10 days if no PCR test done, with no symptoms at the end of the 10 days.

**The day of exposure is considered day zero.*

- Vaccinated individuals, who are not experiencing any COVID-like symptoms, do not need to quarantine.

Testing Positive

If your camper tests positive for COVID-19:

- Notify Director and Camp Nurse immediately
 - Elanar@ramahpoconos.org / rdcnurse@gmail.com
- Your camper must quarantine for 10-days (from the start of symptoms and/or positive test)
- All unvaccinated siblings must follow 'Close Contact' guidelines
- Camper may return to camp after 10 days from start of symptoms and clearance from their doctor if no longer experiencing any COVID-19 symptoms

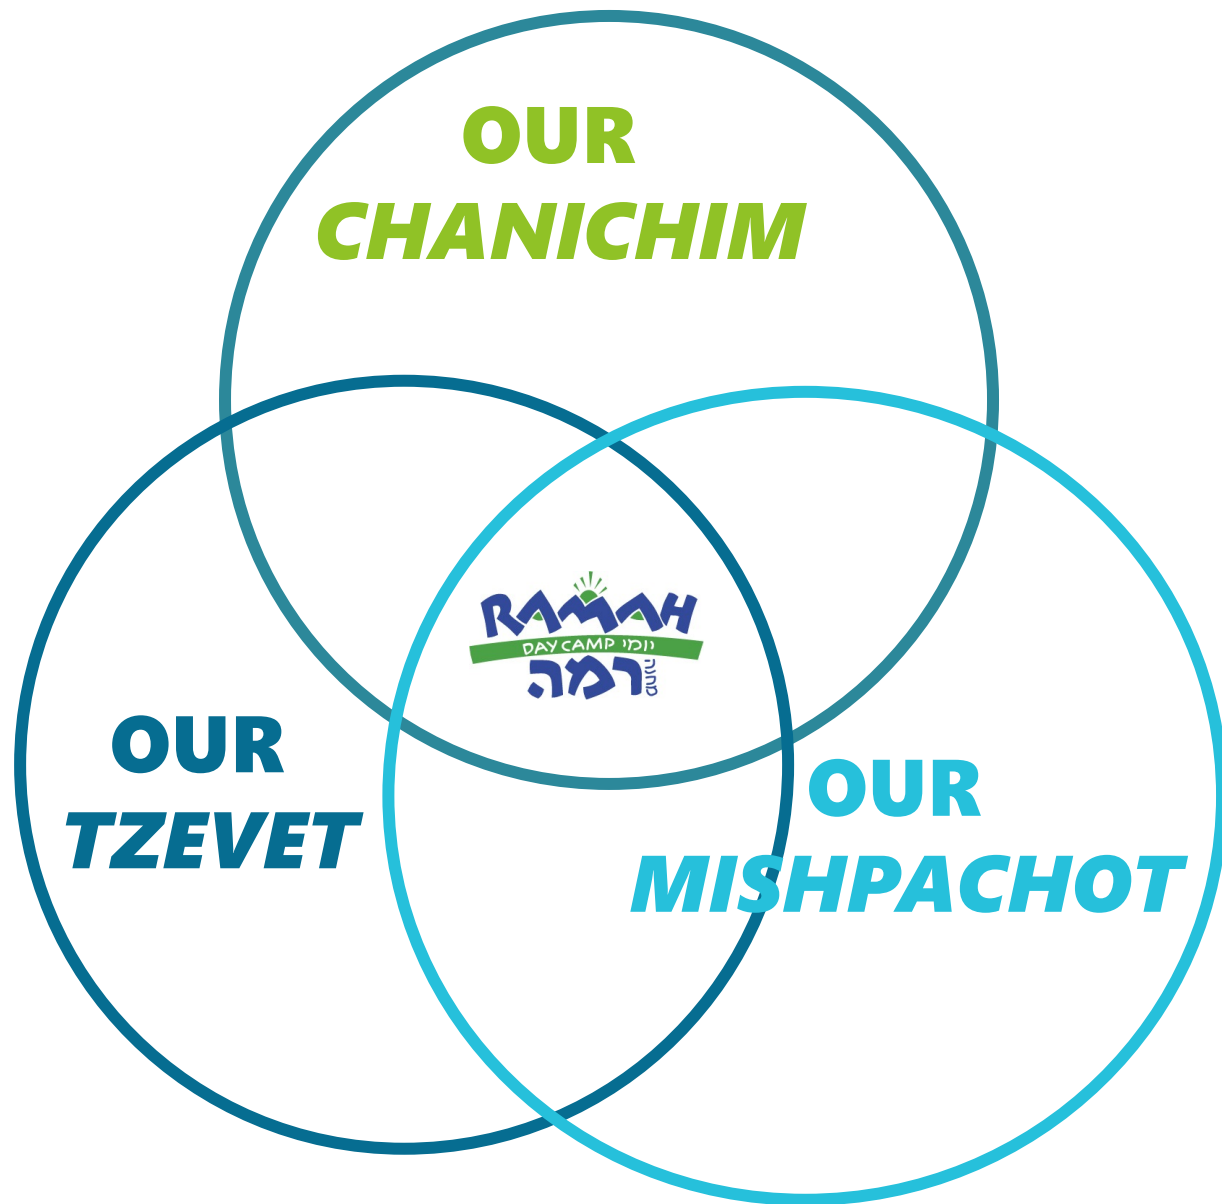

Exposure to a Positive Case

If there is a positive COVID-19 case in your camper's *tzrif*:

- We will notify you via email of the positive case (we are unable to share specific details)
- Your camper will be required to quarantine, per 'Close Contact' guidelines

If there is a positive COVID-19 case on your camper's bus:

- We will notify you via email of the positive case (we are unable to share specific details)
- Campers who sit in front of, behind, or to the side of the covid-positive camper will have to quarantine per 'Close Contact' guidelines.
- Other campers on the bus route will not be required to quarantine, unless they are experiencing symptoms
